Elle se rapporte à toute la période touchant l'histoire de l'Amérique, et tout particulièrement à celle de la guerre de la Révolution et aux administrations présidentielles successives. Elle comprend une grande collection de copies de manuscrits se rapportant à l'Amérique, conservés dans les archives d'Espagne, de France et de Grande-Bretagne. Cette collection s'est tellement agrandie qu'il est eu ce moment impossible sans la consulter d'écrire sur une période quelconque de l'histoire des Etats-Unis. - **O** : 1.430. **P** : 10.883 sans compter les publications annuelles et celles des sociétés savantes. **Q** : $ 305.000 pour imprimerie et reliure ; $ 993.496 pour l'administration ; $ 100.500 pour l'achat des livres. — **Qb** : $ 1.398.996. (sur fiches par auteurs et matières). **U** : La bibliothèque prête ses livres à certains membres du Gouvernement. En dehors du prêt de livres aux fonctionnaires du Gouvernement, il existe un prêt très important d'ouvrages à d'autres bibliothèques. Ce prêt rayonne dans toute l'étendue du pays et permet aux étudiants et aux investigateurs qui ne peuvent se rendre à Washington, de consulter les livres dont ils ont besoin. Ce service est connu sous le nom d'*Inter-library loan system*. **Ua** : 94.281. **Ub** : 412.512. A la circulation des ouvrages au dehors de la Bibliothèque et à l'usage des livres dans les salles de lecture, il faut ajouter celui qu'en font les étudiants qui jouissent du privilège de l'*accès libre* aux rayons. Cet usage est encore plus important et probablement non moins étendu que les autres.

Les relations suivies que les Observatoires astronomiques ont entre eux nous ont permis de donner des renseignements exacts pour les quelques Observatoires (10 pour 100) qui n'ont pas répondu à nos demandes de renseignements.

Il n'existe pas de source d'informations sûres pour les autres Instituts scientifiques. *Les moins importants*, qu'il n'y avait pas lieu de décrire et ceux qui n'ont pas envoyé de renseignements, ou dont les renseignements sont parvenus trop tard, ont été omis ou simplement nommés.

Les Notices qui suivent ont été envoyées par les Instituts eux-mêmes. Nous prions les Directeurs d'Instituts scientifiques de nous envoyer des Notices et de nous signaler les omissions.

Institut alpin du Lautaret *LAUTARET* (Hautes-Alpes) (1928). - Fondé en 1916 par le Touring Club de France. — **M. Mirande.** - Au milieu d'un jardin alpin s'élève un chalet construit en pierres, de style haut-alpin, abritant un petit musée, un laboratoire de Botanique et des chambres pour étudiants ou travailleurs scientifiques. Le musée est surtout un musée ethnographique : il représente la reconstitution, à l'aide de meubles et d'objets d'art anciens et régionaux, d'un *intérieur* haut-alpin. Il contient en outre, une Collection minéralogique et zoologique de la région du Lautaret. Le jardin alpin contient des massifs rocailleux représentant les principales régions montagneuses du Globe, et où sont cultivées les espèces caractéristiques de ces régions. A côté de ces massifs se trouve un jardin botanique où, sur vingt-deux plates-bandes se trouve une Collection, rangée en ordre systématique, des *Plantes caractéristiques des Alpes occidentales*. Le jardin contient, en outre, de vastes pelouses naturelles où pousse la flore même du col du Lautaret, et des portions de terrain destinées aux cultures expérimentales. Une bourse annuelle de 2.000 francs pour un séjour de deux mois (fondation de Blonay), destinée à des études de botanique alpine, est attachée à cet établissement. - **N** : Adresser la correspondance au **Laboratoire de Botanique, Faculté des Sciences, Grenoble** (Isère).

Le Bureau des longitudes a été institué par la Convention nationale (loi du 7 Messidor, an III (25 juin 1795). Il a été créé en vue du perfectionnement des diverses branches de la science astronomique et de leurs applications à la navigation et à la physique du globe, ce qui comprend : 1° les améliorations à introduire dans la construction des instruments astronomiques et dans les méthodes d'observation, soit à terre, soit à la mer ; 2° la rédaction des instructions concernant les études sur l'Astronomie physique, sur les marées et sur le magnétisme terrestre ; 3° l'indication et la préparation des missions jugées par le Bureau utiles au progrès des connaissances actuelles sur la figure de la Terre, la physique du globe ou l'astronomie ; 4° l'avancement des théories de la mécanique céleste et de leurs applications : le perfectionnement des Tables du Soleil, de la Lune et des planètes ; 5°

la rédaction et la publication, dans ses Annales, des observations astronomiques importantes, communiquées au Bureau par les voyageurs, astronomes, géographes et marins.

Commission de Travaux scientifiques du Club Alpin français, 30, rue du Bac, *PARIS* (8e). — Fondée en 1904. — Président : **E. de Margerie.** — Secrétaires : **L. Maury, R. Perret.**

Institut de Physique du Globe, 191, rue Saint-Jacques, *PARIS* (5e) (1928). Téléph. Gobelins 77-16. — **Ch. Maurain**, Professeur Directeur ; **H. Labrouste**, Professeur, Physicien ; **C. E. Brasier, L. Eblé, E. Salles**, Physiciens adjoints. — Établissements annexes : Stations du Parc Saint-Maur, du Val-Joyeux et du Petit-Port à Nantes.

Institut des Recherches agronomiques (1928). 42 *bis*, rue de Bourgogne, *PARIS* (7e). — Fondé en 1921. — L'Institut des Recherches agronomiques est chargé de développer les recherches scientifiques appliquées à l'agriculture, en vue de relever et d'intensifier la production agricole. Il dispose de 88 stations et laboratoires. — **M. Roux**, Conseiller d'État, Directeur ; **V. Boret**, Sénateur, ancien ministre de l'Agriculture, Président du Conseil d'administration. - *Publications* : *Annales des Epiphyties* (1912), *Annales de la Science agronomique*.

Les Stations et laboratoires relevant de l'Institut des recherches agronomiques qui fonctionnent actuellement sont :

PARIS. — **Laboratoire central de recherches et d'analyses du Ministère de l'Agriculture, 42 *bis*, rue de Bourgogne.**

Laboratoire national de contrôle des médicaments, 4, Avenue de l'Observatoire.
Station d'essais de semences, 4, rue Platon.
Stations d'essais de machines, 2, avenue de Saint-Mandé.

VERSAILLES. — *Centre des recherches scientifiques agronomiques.*

Station centrale de physique et de climatologie agricoles.
Station centrale d'agronomie et de biologie des sols.
Station centrale d'amélioration des plantes.
Service de génétique.
Service des mauvaises herbes.
Station centrale de zoologie agricole.
Service des invertébrés.
Service des vertébrés.
Station centrale de pathologie végétale.
Administration et exploitation.

ALES. — **Station séricicole.**

ALFORT. — **Laboratoire national de recherches des services vétérinaires.**

ANTIBES (Villa Thuret). — *Centre de recherches scientifiques agronomiques.*

Institut Pasteur, 21-25, rue Dutot, *PARIS* (15e) (1928). Téléph. : Ségur 08-27, 18-14, 85-96. **Microbiologie. Physiologie**, 21-25, rue Dutot ; **Chimie biologique**, 22-28, rue Dutot ; **Microbe coloniale**, 96, rue Falguière ; **Hôpital**, 205 et 213, rue de Vaugirard. Téléph. Ségur 02-56 ; **Sérothérapie**, 21, rue d'Alleray et à *GARCHES* (Seine-et-Oise). L'institut Pasteur poursuit des recherches scientifiques dans les diverses voies ouvertes par son illustre fondateur : Biologie des microbes pathogènes pour l'homme et les animaux ; Pathogénie des affections qu'ils occasionnent ; modes de transmission de ces infections ; moyens de lutte contre les maladies microbiennes : Vaccinations ; Sérothérapie ; Chimiothérapie (des services pratiques préparent les vaccins et sérums reconnus efficaces). Chimie et Physiologie des microbes et des produits biologiques ; étude des microbes utiles pour les industries diverses des fermentations (brasserie, distillerie, vinification, etc.), les industries laitières, etc. Microbes du sol et Physiologie végétale. Préparation de produits chimiques destinés à la thérapeutique des maladies microbiennes. Hôpital pour maladies contagieuses où sont appliquées les nouvelles données thérapeutiques. - L'Institut Pasteur a été fondé par souscription publique à la suite de la découverte de la vaccination antirabique. Il a été inauguré en 1888 pour la partie (21-25, rue Dutot) où se trouve actuellement la Microbiologie, et en 1900 pour la Chimie biologique (22-28, rue Dutot) et l'Hôpital. — Filiales de l'Institut Pasteur à Lille, Alger, Tunis, Tanger, Nha-Trang, Saïgon, Brazzaville, Athènes, Dakar, Kindia, Téhéran. **H : E. Roux**, Directeur ; **A. Calmette, L. Martin**, Sous-Directeurs ; **L. Fontête**, Econome.

SERVICE DE RECHERCHES ORIGINALES ET ENSEIGNEMENT

Services de Microbiologie : Professeurs : **A. Calmette, A. Borrel, M. Nicolle, A. Marie, A. Besredka, E. Dujardin-Beaumetz, C. Levaditi, M. Weinberg, R. Legroux, J. Dumas, L. Nègre, A. Boquet, A. Berthelot, E. Wollman, J. Magrou, L. Cotoni, E. Césari**, Chefs de Laboratoire.

Service de Physiologie : Professeurs : **C. Delezenne**, Chef de Service. **E. Pozerski**, Mme **Petit-Dutaillis, W. Mestrezat**, chefs de laboratoire.

Services de Microbiologie coloniale : Professeurs : **F. Mesnil, E. Marchoux, E. Roubaud, W. Pézard, W. Lwoff**, assistants.

Un cours annuel, comprenant une centaine de leçons suivies de travaux pratiques, est fait en commun sous la direction du Pr **A. Calmette**, par les services ci-dessus énumérés. Des cours élémentaires de microbiologie, d'histologie pathologique, spécialement destinés aux internes des hôpitaux, sont faits aux laboratoires de Sérothérapie sous la direction de L. Martin et A. Pettit.

Services de Chimie : *a. Chimie biologique* (avec cours et laboratoire d'enseignement de la Sorbonne) : **G. Bertrand**, Professeur : **M. Javillier**, Maître de Conférences. - *b. Chimie des fermentations* (avec conférences de la Sorbonne) : **A. Fernbach**, Professeur ; **J. Croibois, J. Wolff, M. Schœn**, chefs de laboratoire. — *c. Chimie agricole* : **P. Mazé**, Chef du Service. — *d. Chimie thérapeutique* : **L. Fourneau**, Chef de Service, **W. Trèfouël, M. Vila**, Assistants. — *e. Chimie physique* : **H. Mouton, J. Duclaux, G. Malfitano**, Chefs de Laboratoire. — *Laboratoires annexes* : **A. Trillat.**

SERVICES PRATIQUES

Vaccination antirabique : **L. Cruveilhier**, Médecin traitant ; **Y. Manouélian, J. Viala**, Assistants. — *Vaccins pastoriens animaux* : **J. Bridré, C. Truche, E. Fernbach, E. Staub**, Chefs de Laboratoires. — *Vaccins humains* : **A. Salimbeni**, Chef de service. - *Réaction de Wassermann* : **S. Mutermilch.**

Virus pour les rongeurs : **J. Danysz.**

Sérothérapie : **L. Martin**, Directeur ; **E. Tendron**, Chef du Service pharmaceutique ; **G. Abt, G. Loiseau**, Chefs de laboratoire.

Services vétérinaires : à Garches, **G. Ramon**, Vétérinaire-chef ; **J. Descombey**, Vétérinaire adjoint. A Paris, rue d'Alésay, **V. Frasey**, Vétérinaire résident.

Photographie : **W. Jeantet.** — *Bibliothèque* : **W. Camail.**

Hôpital Pasteur : **L. Martin**, Médecin-Directeur ; **A. Veillon, H. Darré**, Médecins-Chefs de Service ; **R. Dujarric de la Rivière, A. Lafaille, R. Martin**, Médecins Assistants ; **E. Tendron**, Pharmacien ; **G. Chuit**, Econome.

Laboratoire d'Essais du Conservatoire National des Arts et Métiers, 292, rue Saint-Martin, *PARIS* (3e) (1928). Tél. : Archives-10.41 et 41.84. — Fondé en 1901, dans le but de permettre aux industriels, commerçants et particuliers de faire essayer, moyennant le paiement de certaines taxes, des matières premières, des produits manufacturés et tous appareils ou instruments. Sa compétence s'étend à tous les essais de physique, de chimie, de mécanique, de machines, de métaux, de matériaux de construction, de combustibles et de matières végétales. Le Laboratoire d'Essais, qui avait été chargé en 1901, du service de vérification des alcoomètres et densimètres, assure, en outre, depuis 1919 la vérification et le contrôle, rendus obligatoires par la loi du 14 août 1918, des thermomètres médicaux.

H. du Laurens de la Barre, disposées dans une belle salle. — **N** : le Musée de Rennes est en voie de réorganisation depuis 1913, ce qui explique l'absence de quelques-unes des Collections qui reparaîtront d'ici quelques années.

Station Entomologique de Bretagne (annexée au Laboratoire de Zoologie de la Faculté des Sciences, *RENNES* (Ille-et-Vilaine) (1927). (Créée en 1904). — **L. Bordas**, Professeur de Zoologie à la Faculté de Sciences, Directeur. — Etudie les mœurs et le développement des Insectes et expérimente les différents procédés qu'il convient d'appliquer pour la destruction des insectes nuisibles. Dans ce but, la Station se met gratuitement à la disposition des Agriculteurs, des Horticulteurs, des Industriels et, en général, de toutes les personnes qui désirent recevoir des renseignements précis. — Un *Jardin d'application* et des *Serres* sont annexés à la *Station* et permettent de faire l'élevage des Insectes nuisibles, d'étudier l'évolution des larves. — Un service d'*Entomologie expérimentale* rattaché au Laboratoire de Zoologie, étudie toutes les questions concernant l'insectologie armoricaine.

La *Station* publie une *Faune entomologique armoricaine* dont un fascicule paraît, chaque trimestre, dans le *Bull. de la Soc. scientifique et médicale de l'Ouest*. Elle publie également un périodique mensuel important, *Insecta*, richement et abondamment illustré. Ce périodique est à sa 15e année. Vol. XV.

La *Station entomologique* fournit *gratuitement* tous les renseignements concernant la destruction des *Insectes nuisibles*. Ecrire au Dr **L. Bordas**, Professeur à la Faculté des Sciences de *Rennes* en lui envoyant le nom ou un échantillon de l'insecte à détruire. Téléph. 413 Rennes.

Is building up a special wild life library. — *Publications* : *Roosevelt Wild Life Bulletin* ; *Roosevelt Lild Wife Annals.* - Exchanges are sollicited ; adress all communications tot the *Director*, to the above given adress.

New Jersey State Museum, State House. *TRENTON*, N. J. (1927) (Founded 1894). — **D** : daily, except Sundays, 9 a. m. to 5 p. m. ; Saturday, 9 a. m. to 12 noon. - **H** : Mrs. **K. B. Greywacz**, Director. - **L** : Minerals, rocks, animals, birds, fish, reptiles, plants, and leading manufactures, of New Jersey. — Special exhibits on subjects of general interest are held from time to time. The Museum works in close affiliation with the schools of the State by lending various collections : Landern Slides, Motion Picture Films, Stereographs, Natural History cases, Industrial Process Charts, Mounted Pictures, etc...

Laboratory for Plant Physiology of the Carnegie Institution of Washington *TUCSON* (Ariz). — **D. T. MacDougal,** Director. — Desert Laboratory.

Seismological Station and Magnetic Observatory, about 13 ki. east of the city of *TUCSON* (Ariz.) (Founded 1909). — Eschnhagen Magnetograph ; Wood-Anderson seismograph.

Agricultural Experiment Station *URBANA* (Illinois) (1927) (Founded 1887). — **H. W. Mumford** Director. — Departments : Agronomy (soils and crops) ; Animal Husbandry ; Agricultural Economics ; Dairy ; Farm Mechanics ; Horticulture ; Farm Organization and Management. — *Publications* : *Bulletins* (1888) to 291 (1927) ; *Circulars*, I (1897) to 317 (1927) ; Country Soil Reports I (1911) to 35 (1927).

Engineering Experiment Station of the University of Illinois. *URBANA* (Ill). (1928) (Founded 1903). - **M. S. Ketchum,** Director. — All members of the teaching staff of the College are encouraged to engage in scieutific research either directly or in cooperation with the research corps, which consists of 33 full-time investigators, 6 part time assistants, and 23 research graduate assistants, who devoted half of their time to research work. — *Publications* : 185 bulletins and 17 circulars.

Illinois State Water Survey Division, 57, Chemistry Building, University of Illinois, *URBANA* (Ill) (1928) (Founded 1895). — Chief : **A. M. Buswell.** — *Activities* : Sanitary and Mineral Water Analyses, investigation of water resources, problems of water purification, and methods of sewage disposal. — *Publications* : *Illinois State Water Survey Bulletins reporting studies on water resources and sewage treatment.*

State Geological Survey Division of the Department of Registration and Education of State of Illinois, 305 Ceramics Bldg., University of Illinois, *URBANA* (Ill.) (1928) (Founded 1905). — **M. M. Leighton,** Cheif. — *Publications* : *State Geological Survey Bulletins*

and Illinois Mining Investigations Bulletins : Geologic, topographic, drainage and base maps.

Magnetic Observatory and Seismological Station of the United States Coast and Geodetic Siurvey, *SAN JUAN* (Porto Rico) (1928) (Founded 1903). Magnetograph Eschenhagen ; Transferred to San Juan (1926). Bosch-Omori seismograph. — Observer in charge : **E. R. Hard.** - The Observatory is maintained by the U. S. Coast and Geodetic Survey. Official name. San Juan Magnetic Observatory.

U. S. Bureau of Fisheries, Department of Commerce, *WASHINGTON* (D. C.) (1928) (Founded 1871). Commissioner : **H. O'Malley** ; Deputy Commissioner : **L. Radcliffe** ; Librarian : **V. Burke.** — **I** : Special collections of fish, fisheries, fish-culture, results of scientific explorations. - **J** : Early history of the fish, fisheries, and fish culture. - **K** : 41.971. — **L** : 1500. — **P** : 310. — **T** : Library of Congress classification system and cards. — **U** : To Government libraries, state Universities and scientific societies. Laboratories : Washington (D. C.) ; Woods Hole (Mass.) ; Beaufort (N. C.) ; Fairport (Iowa). *Fish-cultural stations* ; ca. 40 main hatcheries in 32 states and numerous subhatcheries. *Publications* : *Bulletin o the Bureau of Fisheries* (annual from 1880 to date) ; *Report of the Commissioner*, with appendices (annual from 1871 to date) ; *Fisheries Service Bulletin* (monthly, from June, 1915, to date) ; *Statistical Bulletins, showing eztent of special fisheries.*

NOTES

LISTE D'ÉCHANGES

Les Savants inscrits sur cette Liste désirent échanger avec leurs Confrères les Mémoires originaux qu'ils ont publiés.

La désignation des sujets qui les intéresse précède leurs noms.

L'inscription dans cette liste est accordée gracieusement aux savants, *professeurs ou non*, qui en font la demande au **Directeur de l'Index Generalis**, *Sorbonne*, 15, *rue des Ecoles*, **Paris** (5e).

Le Directeur désire que les adhésions à la liste d'échanges de la huitième édition de l'*Index Generalis* lui soient adressées le plus tôt possible. La liste de 1929 a été close le 1er juillet 1928.

L'inscription peut être demandée : soit pour les sujets indiqués dans la liste qui suit, soit pour des sujets différents de ceux-ci ; le choix le plus large est laissé aux intéressés, *mais l'inscription est limitée pour chacun à trois catégories.*

Les Auteurs sont priés de n'envoyer à leurs collègues que les travaux présentant un réel intérêt et *de les envoyer aussi au Directeur de* l'**Index Generalis**.

Quelques personnes inscrites dans cette liste n'ont pas renouvelé leur inscription en 1927 : *le non-renouvellement de l'inscription en* 1929 *entraînera la radiation.*

PERSONNEL SAVANT

TABLE ALPHABÉTIQUE

Nous avons pu, au cours de l'impression du volume, tenir compte d'un certain nombre d'épreuves revisées qui nous sont arrivées en retard ; nous avons corrigé le texte relatif à quelques Universités ou grands Collèges, en nous reportant aux dites épreuves, mais nous n'avons pu corriger, pour ce qui les concerne, la table alphabétique ci-après.

Pour faciliter l'usage de la Table aphabétique générale

Pour permettre de trouver rapidement dans une page les noms figurant dans la Table alphabétique, nous avons fait suivre le numéro de la page d'un nombre qui varie de (1) à (8). Ce nombre indique la partie de la page où on trouvera le nom. Il conviendra pour connaître l'ordre des divisions de se reporter au tableau ci-contre.

N. B. — Si un nom est suivi de 2 fois, 3 fois la même indication de page et de carré, c'est qu'il se trouve 2 fois, 3 fois, dans la même page et dans le même carré.
